

Two Stars in the Firmament of Spiritual Enlightenment

Mr. Yasuhiko Genku Kimura is no ordinary Eastern philosopher. He is a foremost expert in the art and science of producing authentic transformation in people and organizations. Mr. Kimura is a renowned philosopher, ordained Zen Buddhist priest and scholar, teacher of esoteric spiritual philosophies of the East and the West, researcher of science and scientific thoughts, seminar leader of transformational programs, consultant and advisor to leading thinkers in business, science and cultural organizations, translator of ancient Japanese and Chinese scriptures, and prolific author in the fields of philosophy, ethics, science, and business.

Mr. Kimura elegantly synthesizes Eastern and Western philosophies in his writings and seminars, and makes profound philosophical thinking practically available to people. He does not so much teach particular sets of philosophical concepts or theories but goes inside the heart-mind of people to enable their self-discovery by provoking authentic, original, and creative thinking.

Mr. Kimura gives lectures and offers seminars and courses around the United States, Japan, and Europe. His presentations have been acclaimed for their deeply thought-provoking approach, brilliant originality, and profound transformational power.

Mr. Kimura lives in the upper eastside of Manhattan sharing life with Ms. Mira Joy Vivant, a brilliant and creative thinker and visionary. Ms. Vivant has developed her own philosophy "joyology" - the art and science of living a truly joyful life.

Ms. Vivant is a passionate proponent of the life philosophy that every human being has not only the right but also the responsibility to pursue and attain the highest fulfillment of his or her dreams and visions. Her greatest contribution to the human spirit is her powerful state of happiness and joy, which is so infectious that people start experiencing joy just by being in her presence.

Ms. Vivant gives lectures, seminars, and individual consultations on Joyology.

Besides their unique individual work, Mr. Kimura and Ms. Vivant offer counseling to couples who want to achieve a happy, joyful and fulfilling relationship.
